ANNUAL REPORT
OF THE
SELECTMEN
AND
OTHER TOWN OFFICERS
OF THE TOWN OF
NEWPORT, N. H.
FOR THE YEAR ENDING
FEBRUARY 15, 1914

The Argus Press, Newport, N. H.

Town Warrant

STATE OF NEW HAMPSHIRE.

To the inhabitants of the town of Newport qualified to vote in town affairs:

You are hereby notified to meet at the town hall in said town of Newport on the second Tuesday of March next at 9.00 o'clock in the forenoon, to act upon the following subjects, namely:

Article 1, To see if the town will vote to adopt Chapter 10 of the session laws of 1913 entitled an act to provide for the choice of assessors in the town of Newport.

Art. 2. To choose three selectmen, three tax assessors, town clerk and town treasurer for the year ensuing.

Art. 3. To see if the town will vote to instruct the selectmen to appoint an expert highway agent, who shall have charge of the construction and repair of all highways and bridges in the town, and with such other duties of a general superintendent as the selectmen and commissioners of the town may delegate to him, raise and appropriate money therefor and pass any vote relating thereto.

Art. 4. To choose a collector of taxes and all other necessary town officers, agents and committees for the year ensuing.

Art. 5. To hear the reports of the selectmen, town treasurer, auditors, agents and committees heretofore chosen, and pass any vote relating thereto.

Art. 6. To raise and appropriate such sums of money as may be necessary for the payment of the town debt and defraying the interest thereon, for the year ensuing and pass any vote relating thereto.

Art. 7. To raise and appropriate such sums of money as may be necessary for the payment to town charges.

Art. 8. To raise and appropriate such sums of money as may be necessary for the maintenance of the poor, for cemeteries, parks, commons and water works, and to improve the same and pass any vote relating thereto.

Art. 9. To see if the town will vote to ask for state aid for the purpose of making permanent improvements on the highways, raise and appropriate the necessary amount of money therefor and pass any vote relating thereto.

Art. 10. To raise and appropriate such sums of money as may be deemed necessary for the laying out of highways and building and repairing the same and building and repairing bridges, and pass any vote relating thereto.

Art. 11. To see what sums of money the town will vote to raise and appropriate for the purpose of macadamizing Sunapee street in Newport village, from Main street to the present graveled portion or said street, and pass any vote relating thereto.

Art. 12. To see what sums of money the town will vote to raise and appropriate for the purpose of building and repairing side walks in Newport village, and pass any vote relating thereto.

Art. 13. To see what sums of money the town will vote to raise and appropriate for the burpouse of purchasing a road machine, carts, and other machinery and tools for use of the steam roller in building and repairing highways and other work about town, and pass any vote relating thereto.

Art. 14. To see what sums of money the town will vote to raise and appropriate for the purpose of lighting the streets of Newport village and elsewhere about town, for installing new lights in

town, and the maintenance of the same, and pass any vote relating thereto.

Art. 15. To see what action the town will take with respect to the installation of a new system of lighting any part of Main street in Newport, appropriate money therefor, and pass any vote relating thereto.

Art. 16. To see what sums of money the town will vote to raise and appropriate for the new play ground, and pass any vote relating thereto.

Art. 17. To see if the town will vote to instruct the water commissioners to replace the water pipe from the corner of Grove and Cheney streets to the residence of George A. Gove, with one of larger capacity, with a hydrant connected therewith and appropriate money for the same, and pass any vote relating thereto.

Art. 18. To see if the town will instruct the sewer commissioners to construct a sewer along the line of Maple street and Broad View, raise and appropriate money therefor, and pass any vote relating thereto.

Art. 19. To see if the town will instruct the sewer commissioners to construct a sewer along the line of Green Road in Newport village, and streets connected therewith, raise and appropriate money therefor, and pass any vote relating thereto.

Art. 20. To see if the town will vote to instruct the water commissioners to extend the water system by laying a pipe line on Green Road and streets connected therewith, with a hydrant connected, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 21. To see if the town will vote to instruct the water commissioners to extend the water system by a pipe line from near the residence of F. W. Aiken to the residence of Fred Gonyea, 1200 feet, appropriate money therefor and pass any vote relating thereto.

Art. 22. To see if the town will authorize the selectmen to

purchase for the use of the fire department, 500 feet of hose and a new hose wagon, appropriate money for the same and pass any vote relating thereto.

Art. 23. To see if the town will vote to instruct the water commissioners to place new hydrants where necessary for fire protection, appropriate money for the same and pass any vote relating thereto.

Art. 24. To see if the town will vote to appropriate the sum of \$100 to defray the expenses of Memorial Day exercises, and pay the same to the quartermaster of Fred Smyth Post, No. 10, Department of New Hampshire, G. A. R., and pass any vote relating thereto.

Art. 25. To see if the town will vote to appropriate the sum of \$350 for the support of the Newport Cadet Band, to be paid at the discretion of the selectmen, to William W. Safford, treasurer of the band, providing the band gives a series of open air concerts during the summer months, and pass any vote relating thereto.

Art. 26. To see if the town will vote to appropriate the sum of \$100 for the support of the North Newport Band, and pay the same to I. F. Richmond, treasurer of the band, at the discretion of the selectmen, providing the band gives a series of open air concerts during the summer months, and pass any vote relating thereto.

Art. 27. To see what action the town will take with respect to preserving, restoring or copying the original plan of the lay-out of Newport, or any part of the old record books of the town, appropriate money therefor and pass any vote in relation thereto.

Art. 28. To see what action the town will take with respect to making a survey and map of the streets in the village of Newport, with a view of having the houses properly numbered, to comply with the regulations of the post-office department for towns seeking free delivery, appropriate money therefor and pass any vote relating thereto.

Art. 29. To see if the town will instruct the selectmen to appoint a police force for service in Newport village, and designate

the hours of service, and pay for the same, raise and appropriate money for the same and pass any vote relating thereto.

Art. 30. To see if the town will vote to authorize the selectmen and town treasurer to borrow money on the notes of the town, in anticipation of taxes, fix the amount, and pass any vote relating thereto.

Art. 31. To see if the town will vote to authorize any discount, and if so, how much, on taxes paid before certain dates, and pass any vote relating thereto.

Art. 32. To see what action the town will vote to take to prevent the defacement and injury of town buildings by doves, and pass any vote relating thereto.

Art. 33. To transact any other business that may come before said meeting legally.

Given under our hands and seals at Newport this 21st day of February, A. D., 1914.

Road Agent's Report

TO THE SELECTMAN OF NEWPORT: I herewith transmit a detailed report of the receipts and expenditures of the construction work on State Aid Roads and maintenance work on the Trunk Line and State Aid Roads in Newport for the year ending Feb. 15, 1914.

As the work was done by the same men it was thought best in order to save repetition to give the pay roll and the miscellaneous bills in one list and give the cost of each item of work in a summary.

SUMMARY

At the last annual town meeting it was voted to raise and appropriate the sum of \$5500 00 for repairs and construction on the Trunk Line and State Aid roads, which amount exceeded the amount called for by the State by \$1,351 60 and this sum was added to the Joint Fund for construction, said fund being made up as follows:

Contributed by the state	\$ 469 60
" " town by law	2,348 25

Contributed by the town extra	1,351	
Total for construction		\$ 4,169 60
Expended as follows:		
By the state for engineering	\$ 52 70	
" " culverts	144 40	
" " twisted rods	18 30	
By the town on the Sunapee road	677 01	
" " Claremont road	3,276 74	
		\$ 4,169 15
Unexpended		45

FOR THE TRUNK LINE MAINTENANCE

The state contributed	\$ 962 85	
" town "	932 80	
Total fund		\$ 1,895 65
Expended as follows:		
By the state for engineering	\$ 24 74	
" to Standard Oil Co.,	113 34	
" for culverts	75 43	
By the town labor and materials Goshen road	831 98	
" " " " Croydon road	847 55	
		\$ 1,893 04
Unexpended		2 61

STATE AID ROADS MAINTENANCE

Contributed by the state	\$ 875 00	
" " town	875 00	
Total fund		\$ 1,750 00
Expended as follows on the Sunapee Road		
By the state, engineering	\$ 48 22	
" Standard Oil Co., oil	182 13	
By the town " "	165 00	
" labor and materials	1,349 06	
		\$ 1,744 41
Unexpended		5 59
Total for construction work, Trunk Line and State Aid Roads		
Maintenance	\$ 7.806 60	

Deduct amount furnished by the state	2,307 44	
		\$ 5,499 16
Deduct unexpended balance		8 65

Paid by State to town Nov. 28	\$ 200 00	
" " Dec. 12	54 20	
Balance in State Treasury		
Balance in Town Treasury		
Overdraft \$1,351 30		

S. PERCY HOOKER,

State Superintendent of Highways.

Per S. S. Howe.

In the statement of the Joint Fund from the State Superintendent of highways the sum \$1,351 30 mentioned as an overdraft is for the amount previously mentioned in this report as the extra amount raised above what was required by law and is actually no overdraft as far as the town is concerned.

Respectfully submitted,

R. E. BARTLETT, Agent.

School Warrant

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the school district in the town of Newport qualified to vote in district affairs:

You are hereby notified to meet at the town hall in said town of Newport, on Saturday, the 7th day of March next at 2.00 o'clock in the afternoon, to act upon the following subjects:

Article 1. To choose a moderator for the year ensuing.

Art. 2. To choose a clerk for the ensuing year.

Art. 3. To choose a member of the school board for the ensuing three years.

Art. 4. To choose a school treasurer for the year ensuing.

Art. 5. To choose agents, auditors and committees in relation to any subjects embraced in this warrant.

Art. 6. To hear the reports of the school board, treasurer, agents, auditors, officers and committees heretofore chosen or appointed, and pass any vote relating thereto.

Art. 7. To see what sums of money the district will vote to raise and appropriate for building and repairing schoolhouses and out buildings as the needs of the district may require, and provide suitable furniture and apparatus and needful conveniences therefor, and pay for the insurance of the property of the district from loss by fire, and for the support of schools, and pass any vote relating thereto.

Art. 8. To see if the district will adopt the provisions of Chapter 83 of the Laws of 1913 entitled "An Act Relating to

Medical Inspection in Schools," vote to raise and appropriate money for carrying into effect the provisions of this act, and pass any vote relating thereto.

Art. 9. To see what action the district will take upon the subject of finishing the upper room in the Guild school house, and pass any vote relating thereto.

Art. 10. To see what action the district will take in regard to providing additional room for the first grade now located in the central primary building and pass any vote relating thereto.

Art. 11. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport this 20th day of February, A. D. 1914.

GEO. A. FAIRBANKS	}	School Board
SILAS C. NEWELL,		of
LEWIS S. RECORD,		Newport.

SCHOOL REPORT

Gentlemen of the School Board:

The following is my report of conditions existing in connection with the schools of Newport; also a few suggestions for the same during the coming year.

While my return to town finds me on familiar ground, yet the change of work has brought new problems whose solution must receive a most careful consideration.

I must, at the start, recognize the good-fellowship and willingness to take-hold-and-help extended me by the school-board, by teachers and by parents. To a new man it means much; to one who has served his apprenticeship, it indicates a support not easily defined.

My mind naturally first turns to our high school. Doubtless this is most conspicuous before the eyes of the average tax-payer; surely it should receive all the encouragement necessary.

Under the direction of Prin. Smith, the school is readily meeting the demands of those who would pass above and beyond the work of the elementary grades. A certificate of graduation from the Newport High School will today admit the student to our New England college. For him who cares not for the college education but who seeks the training of the well-informed cognizant of affairs above the three R's, our school well meets the demand.

During the past year we have gone even further. We are teaching the girls, what too few know; how to use the needle. Yes, how to bake; how to prepare the ordinary courses for the table. This does not mean the experienced seamstress; not the

finished cook. It does mean that the school is called upon to do what many homes are neglecting: to emphasize the value of domestic economy; to supplement a work too often lost sight of during these days of social and industrial rivalry.

Book-keeping, mechanical-drawing with practical work with tools, will, we believe, be appreciated by him who today really needs more than the issues of the earlier school life.

In the grades two vacancies existed at the beginning of the present school year; in the sixth and eighth.

Mr. Oliver A. Seaver of Danielson, Conn., and Miss Alice B. Ingham of Lowell, Mass., are respectively the new teachers secured. The question of placing a man at the head of a primary school of three hundred pupils seems to be sound pedagogy. Boys of ten to fourteen years of age respect the masculine. I may all most say, demand it. Our boys are sensitive to the man's touch. Their moral nature is affected by its kin. He looks up to the male teacher. At this age of boy life, the instructor has the greatest opportunity to form character. I believe Mr. Seaver will prove the wisdom of the choice made.

The oft-called crucial grade in our schools; the age when boy and girl are stepping from grammar to higher standards; when life is offering a new vision, the eighth grade, has been put in charge of Miss Ingham. We feel that she has well met the exacting demands. She has surely secured the cordial respect of her pupils.

In our out-lying schools, Miss Ekman and Miss Robinson are at Northville; Miss Helen Haven at Guild. To Miss Elizabeth Frantz of Waverly, N. Y., was assigned the Reed school. Miss Frantz is a graduate of the Mansfield, Pa., Normal School. Mr. Cutts is at Kelleyville.

I believe these schools are all doing good work. The homes in two of these localities are somewhat widely separated, yet the attendance is such as to justify their continuance.

Concerning the school at Guild I am making a few statements, as well offering a few suggestions.

Here we are finding a rapidly growing registration. Arrangements made a few years ago, led to the transportation of scholars above the sixth grade to our village school. Even at that we have today thirty nine pupils in the first six grades at the Guild School. I most earnestly recommend that the school be made to house all the children in this locality. The second floor has never been finished. I suggest that an amount of money be appropriated sufficient to put this in suitable condition for school purposes; that grades five, six, seven, and eight be put on this floor; that the teacher engaged to teach them be principal of the building; that the primary grades one, two, three and four be under the charge of a teacher for these grades only. This is the present arrangement at Northville. I believe it best meets the rural conditions. The question of the cost of transportation ought to be lost sight of in the light of the immense benefit accruing to these communities where a well-kept school enhances the value of life in these communities. Bring your children to the village schools and you leave an empty school-building with a fast depreciating environment. Keep them in their home district, and you have the children, the school and the community life. If there be an economic side to the question, I believe it exists in the fact, (not theory), that if we maintain our rural life, the town or city will care for itself.

Miss Cole has well met the requirements of the new departments established by a vote at the last school meeting. I have already referred to the domestic arts as taught in our high school. Pupils in the seventh, eighth and ninth grades have received, once or twice each week, instruction in the manual arts. We believe that the interest has been well sustained; that the gap between the elementary and high school can be filled by this recourse to something away from books. There is a relaxation in this work that has a healthful reaction.

Miss Nourse for a second year, visits each room in the village schools twice each week and gives the lessons in drawing and color-work.

In the life of the elementary school, many questions and

problems are constantly arising. To solve them is not an easy task. To discuss and suggest is surely within our province. An early query facing us at the opening of the school year was that of crowded rooms. With a first grade so large as to necessitate a forenoon and afternoon "shift" for the past year or two, we were confronted with the need of a temporary solution of how to care for the crowded second and third grades. No teacher ought to be asked to care for a room of fifty pupils. In fact, in some towns, she would not be allowed to try it.

We have had a total registration of thirty six children in the kindergarten. Our first grade has numbered seventy six pupils. The latter has been carried on as during the few years past: a part in the forenoon, part in the afternoon. This "shift" arrangement is detrimental. It puts children on the street during school-hours; for those naturally making slow progress, it means a drag and discouragement all through the grades: the division in the morning session has a natural advantage over those in the afternoon: the morning hours are conducive to better work. I wish more children could have the benefit of the kindergarten. One looking over the work done in the first grade can readily see the asset gained from the year before. The training of the eye, ear and hand means much to the young child.

At the commencement of the fall-term our second grade numbered fifty four; our third and fourth between forty five and fifty. To relieve this congestion we vacated a room on the first floor of the Richards building. Here a new teacher was put in charge of twenty five pupils, the overflow from the above mentioned grades. The work of Miss Hadley is bearing fruit. We hope to make the arrangement a permanent one in that it can become an ungraded or "Batavian" room where children can the more easily be kept along with their regular classes.

The ninth grade has been moved to the high school department. We still consider it an elementary grade. In spite of the many suggestions that we dispense with this grade, I cannot honestly feel convinced that we are ready to do so. If there are eight grade pupils able to enter the high school, (and I most

certainly know that there are such), let them enter it. I am ready to believe that many a child can do it. But I am also convinced that some conditions with us forbid it. I strongly assert that our large classes in the preceding grades make it impossible to fit all our pupils for the high school in eight years. Am I wrong when I state that Newport is peculiar in the many social attractions and organizations bound to monopolize much of the pupil's time and thus draw from the amount of work to be done? You may say "so are other towns replete with a life of engagements." So there are and so do they find, sooner or later, that to educate a child, you must not feel obliged continually to amuse him. Many other towns and cities, notwithstanding daily reports to the contrary, are still finding room for the ninth grade. My suggestion is that for the time being we retain it: at least while our teachers in the lower grades are obliged each to care for from forty five to fifty five pupils. (I may state in passing that today our sixth grade numbers fifty three; our seventh, fifty one).

That something must be done next year to relieve the situation in the first grade is more than an apparent fact. The pupil who learns is he who attends school regularly, as well, he who secures a good start. For some children to attend only in the forenoon; some in the afternoon only; others all day as the parents may request or the school-team arrangements may demand; for these conditions to exist at the commencement of school-life, is not right. In fact, it is, from a pedagogical standpoint, all wrong.

I most earnestly suggest and ask that we may have a double grading system in the two lowest grades. If this be impossible in grade two, at least in the first grade. Every school-teacher knows what this would mean in the grades following.

I have above advised repairs at the Guild school in order to partly relieve the congestion in our seventh and eighth grades. Here I am offering a second, relative to that now existing in our first grade. The old high school building is still our property. We have rented the upper floor. The lower is occupied on the south by the kindergarten. The north is a repository for rubbish and wood-piles. Is it not possible to put this floor in condition for

school use? An extended lease of the building necessitates that you keep it in repair. I am suggesting that you consider the feasibility of housing a portion of our younger pupils here; that an appropriation be made for such changes.

The public spirited citizen of Newport rightly hold his head high as he points to the growth and development of his town. Let him remember that this means additional accommodations for our children. The time is not far distant; truly it is approaching, when we must have another school building.

Far be it that I weary the reader with suggestions, yet one remains worthy a thought. To some the ring of the word may suggest the city; to some it may indicate the fad; to him who sends his well-washed and well-nurtured child to school, it means a vital reality.

If the reader could or would stand for a few minutes before a class of children; if he should then move up and down the aisles of one of our crowded rooms, one fact would never escape him. He would be thoroughly convinced that incipient diseases resulting from adenoids, weak throat; yes, from neglected hands and head, call for an inspection such as the teacher cannot give. Possibly your child comes home from school with a sore throat; he has a pallor; he is not hungry. If you could see some conditions attending children of the same school-room, you would not be surprised that he is such. To the reader finding such conditions, the question of medical inspection has a meaning. I am suggesting that a local physician or nurse be employed to inspect the physical condition of our school-room. If any have failing eye-sight, (and there are such), the inspector will detect it. If there are adenoids, (and we most certainly know that such cases are existing uncared for), proper relief can be given.

With some parents the question of health has become one of poor economics. Here is one statement expressed a few days ago: "We cannot give the case attention now. Wait until summer when our expenses are less."

The newer Newport will depend upon the health of its citizens. As is the child today, so will be the community tomorrow.

Concerning the question of carrying out this work, I am referring the reader to Chapter 83, Acts of 1913.

Its various sections relate to the appointment and duties of the physician appointed. Communicable diseases are carefully watched for, sight and hearing are tested at least once each year. The physical welfare of each child is carefully guarded. Parent and teacher are directed by the proper authorities. Sec. 9 under this Act reads that the district may raise money for carrying out the provisions of this act.

These are the conditions as I have found them in our local schools; also the few suggestions based upon a careful consideration. Our schools are not ideal. Schools not open to criticism do not exist. To one critic, the school accomplishes too little. Another finds his child working too hard. Does one ever think that this year a teacher may have a class whose unity is marked? It may be possible to find next year's class for the same grade one of stragglers. One grade may have three score pupils; the following one-half as many. There is the possibility of one-half the scholars in a class holding back the entire number. Again we may be obliged to conduct the class in two sections as today in grade one. Instead of telling what ought to be done here simply because it is done somewhere else, would it not be better to first see what the local conditions allow us to do?

The normal conditions of school-life allow regular promotions. If a child is physically able to attend school; if he brings with him the co-operation of his parents; if he is not tied hand and foot by outside engagements; if he entrusts his welfare to his teacher, the doubts about his promotion are in the imagination.

Our schools stand not for places to amuse or entertain. They are not simply work houses. They are centers for the growing working life. From them comes the best. In every child there is a best. The Newport school should aim to find that best.

Again thanking you, members of the school-board, for the loyal support given me, I beg to remain

Very cordially yours,

FREDERICK D. HAYWARD, Supt. of Schools.

Water Commissioners' Report

To the Citizens of the Town of Newport:

The board of Water Commissioners for the town of Newport respectfully submit the following report for the year ending Feb. 15, 1914:

Total amount of orders drawn by the Selectmen for construction, maintenance and repairs of the water works system to Feb. 15, 1913.	153,912 83
---	------------

From this amount deduct cash received for material sold and from service and miscellaneous accounts and cash returned by treasurer of the board, also cost of North Newport water system to Feb. 15, 1913,	\$16,242 34
--	-------------

Also cost of maintenance and repairs,	19,464 91
	\$ 35,707 25

Net cost of system Feb. 15, 1913.	\$118,205 58
-----------------------------------	--------------

Amount of orders drawn by Selectmen during the year ending Feb. 15, 1914	3,098 94
	\$ 121,305 52

From this amount deduct cash received on service pipe and miscellaneous accounts	\$ 773 12
--	-----------

Also cost of maintenance and repairs for the year ending Feb. 15, 1914.	1,578 88
	\$ 2,352 00

Net cost of system Feb. 15, 1914	118,952 52
Increase in cost during the year	746 94

CASH RECEIPTS

Cash in hands of D. J. Mooney, Feb. 15 1913	\$32 75
Received from George E. Lewis and others water rent, 1913-14	9391 44
Received from R. T. Martin and others, on service pipe and miscellaneous accts.	773 12

STREET EXTENSIONS AND HOUSE CONNECTIONS

RIVER STREET

To furnish water for the two tenement house east of the railroad owned by the Brampton Woolen Co., 615 2-3 feet of 1 inch cement lined pipe has been laid from the 6 inch main near the Brampton boiler house to the before named building, at a total cost of \$180 24. Of this amount the Brampton Woolen Co. paid the cost from the railroad crossing to the house, \$54 95. Net cost to the town, \$125 29.

SUNAPEE STREET

To furnish water for house of Hiram H. Rhodes, and another to be built on a newly laid out street opposite the old trotting park, there has been laid 293 feet of 1 1-4 inch and 48 feet of 1 inch cement lined pipe at a net expence to the town of \$86.16.

CANAL STREET

On the new extension of Canal street from a point opposite the brick house owned by Patrick Herrick on Sunapee street there has been laid 184 feet of 1 1-4 inch cement lined pipe to supply two tenement houses, the net cost to the town being \$87.28

BRADFORD ROAD

From the terminus of the 4 inch main of Bradford road to furnish water for the house of Gilbert D. Durant, 216 feet of 1 1-4 inch and 54 3-4 feet of 1 inch cement lined pipe has been laid at net cost of \$83.44 to the town.

GUILD

To supply water for a sprinkler system in the new weaving shed at Guild 108 feet of 6 inch cast iron pipe has been laid at a cost of \$158.01, the entire expense having been paid by Fairbanks & Dorr.

HOUSE CONNECTIONS

Service pipe connections have been made to twenty one houses furnishing water for twenty-five tenements; also to the new Citizens Bank block, to the new Newport Garage, for the

Playground, to the Armory building and shop, to Beechnut block, to Mr. Newcomb's shop and to two private stables. The net cost to the town has been \$282.01.

METERS

Meters have been placed upon service pipes of the Bath house on Canal st. extention, the Beechnut block, the Newport house and the Phenix hotel at an expense of \$82.76.

There has been laid of 1 inch cement lined pipe,	2,342 ft
“ “ 1 1-4 “ “	700 ft
Adding this to that previously laid,	57,249 ft
Total amount	60,291 ft

Cast Iron Pipe

Adding 108 feet of 6 inch cast iron pipe to that previously laid the present amount in the system is:

4 inch pipe,	4,987ft
6 “	59,225
8 “	33,348
10 “	4,825
12 “	1,255
Total	103,640 ft

Gate Valves

There are upon the entire system:

29	4 inch valves
65	6 “ “
17	8 “ “
4	10 “ “
3	12 “ “

Water for hydrant service, flushing sewers, watering troughs, town hall, engine house, school buildings, library and library house, Carrie F. Wright hospital and houses, Maple street, Pine Grove and Catholic cemeteries, and street sprinkling is without charge.

GILMAN POND

From Jan. 15 to about the 1st of June water flowed over the wasteway at the pond. A severe drought prevailed from June 1 for nearly four months. Water was used very freely and unquestionably in many instances, was wasted. On Sept. 18 notices were printed in the local papers by the board of Commissioners requesting that garden and lawn sprinkling cease for the remainder of the season, and that all waste be stopped. By house to house inspection and by information from various sources many leaking fixtures

were discovered and repairs ordered. The loss of water at the pond was rapid and caused much anxiety. When full, 8 ft. of water can be drawn. On Oct. 10 only 2 1-2 ft. remained. Nov. 11 there was 2 ft. 1 inch.

Dec. 3 there was 1 ft. 9 inches. From that time until the present, Feb. 20, the amount has varied but little. The large body of snow on the ground ought to fill the pond within a few weeks. The supply will be ample to meet the needs of the people of Newport. But if faucets are not made tight and flush closets are not kept in order; if streets are deluged and water is used on gardens, lawns and fields for irrigation, that pond and another as large will not supply the wants of the town.

REMARKS AND SUGGESTIONS

During the year six leaks have developed, four on the mains and two on service pipe connections.

The well in reservoir pasture has been replanked, and the decayed timbers of the bridge at the reservoir gate house have been replaced by iron beams.

The hydrant at the corner of Canal and Cross streets has been moved to the east side of Cross street. The 4 way hydrant on Main street has been moved to a point nearer the Rowell stone water trough.

Nearly sixty of the hydrants have been repainted, and the water tub near the Geo. B. Lear blacksmith shop has been replaced by a new one.

The low stage of water in Gilman pond rendered it necessary to make many extra trips in order to keep the screens clear and the water flowing.

At the annual meeting the commissioners were instructed to replace the 1 1-4 inch pipe on Cheney street extension with 6 inch cast iron pipe. No appropriation was made to defray the cost and the work has not been done. It is the opinion of the board that about 1100 ft. should be laid, instead of the 800 ft. voted, in order to furnish better fire protection to that part of the village.

The attention of the voters is called to the need of better fire protection on Greenhurst, Green road and the so called Syndicate

section. By vote of the town a 1 1-4 inch pipe was extended on Green road in 1909. The size was sufficiently large for the houses then in prospect. There are now 31 tenements and one flush tank on that line, west of Main street. A 6 inch cast iron pipe, with sufficient hydrants, should be laid, not only to furnish a better water supply, but to furnish fire protection to all those houses, as well as to prevent a general conflagration should a fire get under way in that section.

SEWER CONNECTIONS

By the authority of the board of selectmen, 490 feet of 6 inch sewer pipe has been laid on the new extention of Canal street at a cost of \$241.13. Seven tenements have been connected.

By the same authority 140 feet of 6 inch sewer pipe has been laid on the east end of Prospect street at a cost of \$69.25, furnishing an entrance for the new house of I. P. Rawson.

During the year 18 houses, furnishing accomodations for 25 tenements have been connected with the sewer. Also the Lovell Drug store, Mr. Newcomb's shop and the Armory building.

ELM STREET SEWER

How to restore and maintain the efficiency of the sewer on this street has been a serious problem for years. The grade is small and the outlet has been repeatedly covered by sand, gravel and debris. We have attempted to correct the trouble by excavating a channel on the east side of the river and turning the flow of water from the west side to the east by dumping in a large amount of stone forming a wing. The plan, thus far, seems to

have removed the trouble. The expense has been \$196.00.

Amount of 6 inch pipe laid	630 ft

AN IMPORTANT MATTER

The attention of every person who makes use of fixtures connected with the sewer system, is called to Section 8, Article 2 of “Rules Regulating Plumbing and Drainage of Buildings,” adopted by the town. It reads as follows:

Section 8. To throw or deposit, or cause to be thrown or deposited in any vessel or receptacle connected with the public sewer, any garbage, vegetable parings, ashes, cinders, rags, or any other matter or thing whatsoever, except faeces, urine, the necessary water closet paper, and liquid house slops, will be considered a misdemeanor, and any person or persons guilty thereof, shall pay a

fine of not less than one dollar (\$1.00) or more than twenty dollars (\$20.00) for each and every offence.

A cheerful compliance with the requirements indicated in this section, will lessen the plumber's bills, and will aid in the successful operation of the system.

Respectfully submitted,

D. J. MOONEY,	}	Board of Sewer Commissioners.
TY. L. BARKER.		
F. E. BROCKWAY,		

Cemetery Commissioners

To the Citizens of Newport:

During the past year the total number of burials in town has been sixty-four, of which four were in North Newport Extension, twenty-seven in the Pine Grove cemetery and the balance in the old cemeteries.

Two lots have been sold in the North Newport extension for which \$30 has been received and eighteen lots in the Pine Grove cemetery for which \$688 has been realized.

The permanent care fund for the Pine Grove cemetery, exclusive of interest accrued, now amounts to \$989 14 and the permanent fund of the North Newport Extension, exclusive of interest accrued, to \$212 50.

The income from the above two funds can only be used for the care of the cemetery from which the funds originated.

The permanent improvement fund of the Pine Grove cemetery amounts to \$568 53 of which \$500 is at interest on deposit and the permanent improvement fund of the North Newport Extension amounts to \$90 50

There is an unexpended balance at the close of the year in the hands of the treasurer of \$422 56 which includes the North Newport Extension improvement fund of \$90 50 and \$68 53 of the Pine Grove Permanent improvement fund, making a balance of \$263 53 available for burials and general care.

At our last annual March meeting of the town voted to appropriate \$300 for the purpose of a new wall and improving the

approaches to the Maple Street cemetery provided a similar amount was contributed by the Daughters of the American Revolution. A committee of the American Revolution and our commissioners have conferred several times during the past year and have considered several plans and will doubtless be ready during the spring or early summer to proceed with the work.

We would respectfully recommend that \$500 (the same sum as last year) be appropriated for the cost of burials and general care.

Respectfully submitted,

Received of selectmen		317 50

Respectfully submitted,

L. A. PURMORT, Overseer of Poor.

Cadet Band

The Band feels that its showing for the year is deserving of favorable comment. We were cut fifty dollars in the town's, appropriation, and to offset this, the old Engine Company's Hall was given us for a Band Hall, rent free. We have made our expenses come within the amount appropriated. To do this, we have been obliged to curtail to a much grater degree then advisable, the amount of music purchased, and have been obliged to play in "high pitch," which very few bands do at the present time. We were very fortunate in our benefit, at the Empire Theatre, and felt justified in changing the instruments to "low pitch." The bills for this have not been received, and so do not appear in the report, but we have sufficient funds in hand to meet these bills. Thanking the public for their kindly support,

This report is respectfully submitted.

February 13, 1914.

Report of Fire Department

To the Citizens of Newport:

I herewith submit a report of the fire department for the year ending February 1, 1914.

During the year the department has responded to 35 alarms, as follows: 8 bell alarms, 18 still alarms for chimney and slight fires, 8 brush fires, and one call for assistance from Sunapee.

Damage by fire during year has been \$13,861.80 upon which there was \$10,765.35 insurance paid.

There has been every effort made by the members of the department to maintain efficiency and to give the town their best efforts in the service.

It is hoped that the coming year there may be purchased a new hose wagon to replace the one that has been in service for the past 29 years which has become out of date, and if kept in the service extensive repairs which will need not be good economy, but in case of a new purchase may be of some value by transferring the running gear to the Hook and Ladder truck in place of one which is altogether too light for the load it carries.

There should be at least 300 feet of new rubber lined hose purchased.

I wish to thank the citizens in behalf of the department for their generous support and appreciation expressed.

Respectfully submitted,

GEORGE E. LEWIS, Chief Engineer

Police Department Report

From April 19, 1913 to Feb. 15, 1914, warrants for the arrest of 201 persons, 198 males and 3 females have been issued, and the parties brought to trial of these 199 have been convicted, 2 discharged for lack of evidence.

The charges are classified as follows:

Drunk	159	Illegal sale of liquor	2
Formication	4	Cruelty to animals	2
Assult	9	Furnishing liquor	5
Larceny	4	Carrying dangerous weapons	1
Peddling without license	1	Violating Automobile law	1
Non-support	2	Vagrancy	2
Disturbing the peace	8	Selling mortgaged property	1

Two hundred and thirty-five cases have been investigated where no warrants were issued.

Money and property to the value of about one hundred dollars has been found and returned to the owners.

Eighty-five tramps have been lodged at the Police Station during the year.

Three persons have been located and held for officers from other police departments.

I desire at this time to thank the citizens of Newport for their cooperation, and the assistance they have given the department, also the officers of the department for the able and efficient manner in which they have performed their duty.

Respectfully submitted,

FREDERICK M. GUNN, Chief

Board of Health Report

Newport is to be congratulated on its health record for the past year. There has been only one case requiring quarentine, which is truly remarkable, especially in consideration of our diverse and rapidly changing population.

This record, however, has not induced any laxity on the part of your Board of Health. Numerous complaints of unsanitary conditions have been investigated and corrections ordered or suggested, while in a few instances nothing could be done. The conditions on lower Greenhurst, for instance, are very bad and can be remedied only by proper sewerage arrangements. It is for the interest of the whole town that this be done.

Our hardest problem at present is the grist mill pond. A large amount of sewage is poured into this pond in the very center of the town, and the volume of water is not large enough to prevent it from being a menace even when the pond is full. When water is low the conditions become thoroughly obnoxious and clearly dangerous to the public health. That no epidemic has resulted is no guarantee for the future. The board will oppose any future pollution of the river at this point.

Respectfully submitted,

J. L. CAIN, M. D.
J. R. KELLY,
S. H. EDES,

IN TOWN AFFAIRS

It is important to get honest value for every dollar expended. It is equally important to do so in private affairs.

As clothing is something that everyone is obliged to buy more or less of, it is of the utmost importance that they get an honest dollar's worth for a dollar, when buying clothes. If we don't give you full values we want to know about it.

TY. L. BARKER - 'Nuf Ced
